Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

This invention relates to sulfonylamino(thio)carbonyl compounds and their use as herbicides. The closest prior art of record is to Daum et al, US 5,057,144. Daum et al teach sulfonylamino carbonyl triazolinones and their use as herbicides. The instant claimed compounds differ from the prior art in that Daum et al does not disclose di-substitutions, which include the sulfur atom (as claimed in S-R¹ moiety affixed to the benzene ring) and R² of the present invention with one another. Therefore, the compounds of this application are allowable over the art of record.
